

## The Great Northern Collection

Offering visuals of pine and sawn-face white oak, Jasper has nice wood embossing that emphasizes the gentle movement of elongated grain. Planks are in a classic narrow format, and colors are fresh and modern. In four rich colors, Jasper offers three updated traditional browns and one warm gray taupe with highlighted grain. With its updated browns and highlighted graining, this collection of looks goes beautifully into the most traditional homes but also works well with contemporary décor.

## Colors

332 Fortress Oak

548 Highlands Pine

575 Hudson Oak

682 Parkway Oak

This Shaw Laminate is warranted not to stain or wear through, will not fade as a result of direct sunlight or artificial light and will resist water damage under normal use conditions.

The anti-bacterial coating works alongside hygienic cleaning regimes to protect your floor and family against germs.

"Drop Loc" is a classic locking system with clickable short and long edges. The tongue & groove joint along the length of the panel is placed in position from above. It is an easy installation with minimal tools.

Swelling resistant substrates and secure click systems ensure optimum protection against moisture.
